

Adventure Center of Asheville and Wildwater Ltd. Group Tour Information

The Adventure Center of Asheville

open all year • 5 minutes from Downtown Asheville • group picnic area
group rates for 10 people or more

Asheville Treetops Adventure Park - aerial challenge course in the trees with 77 unique climbing, rolling, walking, jumping, swinging, and rappelling elements in a wooded park on 7 adventure trails. There are several elements that are representative of the activities you can do in North Carolina including a sky kayak, a parkway tunnel, a snowboard in the sky, swinging hula hoops, bumper boats and a zip hang glider, all in the trees that make this a "Truly Asheville Adventure."

Twilight in the Treetops

Bring your group for a night climb at the Treetops Adventure Park. Watch the world transform from dusk to night while climbing in the trees. Trails will be illuminated to give climbing the obstacles a new perspective. Over 15,000 colored lights, plus colorful lasers sparkling on thousands of leaves, cables, rope, and platforms throughout the park will create a mystical tree climbing experience like you can't imagine. The Black course is not open during the Twilight climbs.

Activity level:

At the Adventure Center, we have many options that range in physical activity. We offer our activities on a “challenge by choice” basis. And we are proud to host guests in age range from 4 years old to 84 years old.

To participate in the Asheville Treetops Adventure Park, guests must be able to walk, bend and balance on challenge elements like swinging bridges, double logs, and zig zag beams. Guests must be able to climb steps. While, the beginner trails are not strenuous, they do require the participant to have balance and some flexibility. Every guest participates in ground school and starts on the beginner trails- then can “choose” to venture higher to our intermediate trails when age appropriate.

While zipping on the Zipline Canopy Tour is not a strenuous activity, you do have to be able to climb the stairs of our zipping tower. The speed of the guest is manually controlled, therefore every guest participates in ground school and on our 3 “practice” ziplines.
